Band 7 £33,247 - £42,508 p.a. inc.
Band 8a £41,262 - £48,683 p.a. inc.
JOB REF: 312-HH-SU-2036

The Royal Brompton & Harefield NHS Trust is the UK's largest post-graduate specialist heart and lung centre. The Trust was named "**Best Heart Hospital**" in England by the Independent Newspaper in March 2008. We are a world famous organisation with a proud history in the investigation, treatment and research of heart and lung disease. From our two sites – in Chelsea, London and Harefield, Middlesex – we strive to develop our staff both personally and professionally to ensure our patients get the first class service they deserve.

Situated just 20 minutes by road to Central London and with excellent tube and bus routes to London and beyond, Harefield is ideally located for foreign workers wanting to see a bit of the UK whilst earning money in order to do so.

We have a permanent position available for a motivated clinical perfusionist wishing to join our dynamic team.

You will be experienced in all aspects of basic perfusion practice including IABP, cell salvage and have current full registration with the College of Clinical Perfusion Scientists. Experience in ECMO, VADs, transplantation/organ retrieval and Levitronix is desirable, but training and support will be provided.

The successful applicants will be rewarded with the opportunity to develop their skills in a multidisciplinary environment.

Full participation in the on-call service will be required.

We can offer in return an excellent reward package, on site accommodation, discounts to local attractions and amenities, training and development opportunities and all the other benefits of working for an NHS Trust.

For more information or an informal visit, please contact Allison Bashford, Head of Perfusion on +44 (1) 895 828619 or 823737 bleep 6302.

For a job description and person specification and to apply please visit www.jobs.nhs.uk, alternatively please contact Sian Vincent on +44 (1)895 828754 for more information.
